## Rex Theater

Saturday Night only, October 23

## "The Still Alarm"

with William Russell  
and Helen Chadwick

ALSO A GOOD TWO REEL COMEDY

There will be no picture at the Rex on Friday night, October 22, on account of the big road show "So This is London" playing on that night.

### CLARESHOLM LOCAL NEWS

Bert Pole has this week invested in a new Tudor Ford sedan.

T. C. Larson has this week bought a new Studebaker coupe.

Rev. W. Jarlow and "Chas. Moore" motored to Calgary on Thursday.

Oliver Mosley and Dick Brown are each installing new Delco light plants.

Mrs. (Dr.) Ganey returned on Tuesday evening from visiting her mother at Leduc.

Leo Pfeiffer came down from Calgary on Wednesday to look after his farming interests here.

Most of the wheat coming into the elevators here is now grading No. 3, though some has graded No. 2.

Several people from Clareholm and vicinity attended the Gallucci reception at Calgary last Saturday night.

"Roast chicken a specialty at the Sunshine Club food sale and bazaar at the I. O. O. F. Hall on November 6th.

Government Inspector Hilten was here on Wednesday and "tagged" the young stock at A. McKinney's fox farm.

"The Still Alarm," with William Russell and Helen Chadwick at the Rex theater on Saturday night only, this week.

Mrs. Harry Gordon, who underwent a surgical operation at the local hospital on the 15th, is progressing favorably.

John F. Miller, eye, ear, nose and throat specialist, of 404 Underwood Block, Calgary, will be at Queen's Hotel in Clareholm on Thursday, October 28th.

Greenshield Gables gave a birth-day party to some of her small friends on Thursday, the occasion being her eighth birthday anniversary.

War Deacon came to the local hospital on Tuesday morning with a finger so badly crushed by a closing door that amputation was necessary.

Wm. Monarty, one of the old timers in Clareholm, was shaking hands with old friends here on Thursday. He is now living in North Dakota.

J. H. Davis, formerly of Banff, is opening a store for the handling of fresh milk, cream, butter and eggs, in the Smedstad building opposite the Clareholm Garage.

Floyd Florence, of Staveley was brought to the local hospital suffering from a crushed ankle, the foot having been caught between a granary and a moving stone boat.

Kenneth, the eleven year old son of Andrew McMillan of Granum, was operated on at the local hospital on the 14th for appendicitis. He is making favorable progress.

Mrs. E. J. Poor, of Lacombe, Alberta, who has been visiting her son in Montana, stopped off on her way home to visit a few days with her former pastor Mrs. Olive E. Bean and family.

Mrs. O. L. Reinecke and daughter Arlene, returned here from their eastern trip on Tuesday morning, having visited relatives in St. John's, Montreal, Boston, New York city and other points.

The wrestling match failed to materialize at the Rex theater on Wednesday night, on account of Deek, who is in the States, having now refused admission into Canada by the immigration authorities.

Some big yields of wheat in this district are being revealed by threshing returns. One of the biggest is reported from A. W. Miller's farm, southeast of town, with a yield of 55 bushels to the acre from a considerable portion of his farm.

The big new engine for the town's power plant arrived the first of the week and has been unloaded from the car in quick time. It will be installed as rapidly as possible. So it will be but a short time now until Clareholm will have twenty-four hour electric service.

O. L. Reinecke has added a Frigidare refrigeration plant to his ice cream and soft drinks parlor, thus locating this department of his store at the head of the list of similar establishments in the province.

Louis St. Marie was up in police court here charged with driving his car over the top of the limit. Evidence showed that the car was going at the rate of thirty miles an hour. He was fined \$15 and costs.

Five Mile school was closed from Monday until Thursday on account of the teacher, Mr. Crumley, being called to Red Deer to see his son Billy, who was very ill, spinal meningitis being feared. Billy is reported to be improving.

The foul smelling Turner Valley gas has been turned into the pipes again at the week end. The stench from it has been so nauseating that some users here have shut off the gas and gone back to coal and wood for the time being.

The Ladies' Aid of St. Vincent's Catholic church, Clareholm, will give a dance in the I.O.O.F. Hall on Friday night, November 5th. Mack's Melody Makers are supplying the music. Supper will be served in the hall. All will be welcome.

Dr. Alexander's lectures have been well attended this week. He announces that on Sunday he will give three lectures, one for ladies at 2 p.m., one for men at 3:45 p.m. and after church services in the evening will lecture on "Social Evil."

The contract has been let to S. M. Ferguson for the addition to Rethel church and the construction work is now in progress. It is to be completed by Dec. 1. Changes are also being made in Harrison Hall in response to a request from the young people for more commodious quarters for basketball and gymnasium facilities.

Owing to there being so many complaints of motorists as to the Motor Vehicles Act, warning is again given that children under age must not be allowed to drive cars. Many are also committing a breach of the Act by driving at night without the required number of lights. Motorists will save themselves court costs and fines by observing the law in these respects. Serg. Hiden wishes to again warn all car owners and drivers that continuance in violation of the Act will surely lead to prosecution.

Ideal harvest weather has continued throughout the past week in this district. Many threshing outfits were running all day Sunday, it being considered wise to take every advantage of the fine weather in view of the bad weather and extreme uncertainty that has prevailed all fall. There is still some grain uncut in this part of the province, owing to ground having been too soft from rains to run the binders. It is reported that there is more uncut grain north of Calgary than in the south. Should the fine weather continue, another week will about clean up the threshing in this district.

### Pound Party at the Nazarene Parsonage

At the parsonage of the Church of the Nazarene on Thursday evening, October 14, a pound party was given to the pastor Rev. Mrs. Olive E. Bean.

The evening was pleasantly spent in games and song. Sandwiches and coffee and cake were served to the guests. The party was dismissed with prayer.

The guests present were Mr. Charles Day, Mrs. John Humphries, Mr. and Mrs. Carl Rudolph, Miss Minnie Rudolph, Mr. William Rudolph, Mrs. Barr, Mrs. Garis, Mr. and Mrs. H. Petersen, Miss Mariam Petersen, Mr. and Mrs. Charles Wilson, Miss McKay, Mr. Philip Harding, Mrs. Hugh Smith, Miss Myrtle Smith, Miss Annie Gonts, Mrs. F. W. Smith, Mrs. J. Charles, Mr. and Mrs. Baker and son, Miss Elma Burch, Mr. John Burch, Mr. and Mrs. Robert Laing, Mr. James Hutchison, Mr. William Anderson, Mr. Frank Burch, Master George Baron, Master Fred Hildner, Master John Hildner, Master Joseph Colman, Mrs. Andrew Furuseth.

### EARLY COUGHS

October, with its warm days and cool nights, marks the start of the cough and cold season and foolish indeed are those who neglect these early coughs.

### NYAL CREOPHOS

will relieve them promptly and build up strength for the forthcoming winter. Our advice is to fortify the system now with Creophos so you can face cold weather with assurance of good health.

Ask us about Creophos.

## Seed Treatment Of Wheat To Control Smut And Other Diseases Gives Larger Yield

That crop losses caused by parasitic organisms such as fungi and bacteria, amount to many millions of dollars annually is the statement made by the Natural Resources Intelligence Service of the Department of Agriculture at Ottawa. The remedy is seed disinfection.

Dr. Clayton Roberts, Ontario, Professor of Plant Pathology at the University of Toronto, is engaged in research along this line and has been able to increase the yield of plant diseases through seed disinfection in many cases. Through the sale and distribution of treated seed, parasites have been widely distributed through out the production areas of the world. Some parasites, such as the cereal rusts, are known to be carried wherever these crops are grown.

Seed treatment of wheat, oats, barley, etc., will control smut, and other diseases and result in a yield increased valued greatly in excess of the expense involved. For seed disinfection, formaldehyde, and corrosive sublimate have been generally considered standard, but each has its limitations. More recently organic mercurials have come into use, and extensive studies of the problem of seed disinfection. These appear to be superior in many respects to the older ones, giving as wide a range of safety to parasites and a much wider margin of safety.

Seedmen are beginning to exhibit interest in seed treatment and it is predicted that in a few years only disinfected seed will be sold or seed produced under such conditions as to be relatively free from seed-borne parasites.

### Tankage for Nursing Sows Provides a Useful Part of the Rotation, As Shown by Tests

Tankage has been proved at the Brandon Experiment Station to provide a useful part of the rotation for sows raising litters. A test was made with three sows with 15 litters of twenty-seven pigs, and three with litters of twenty-eight all approximately of the same age. The total ration for one group was made up of 200 lbs. of pig feed, barley chop one part, bran one part, and shorts one part, with three per cent oil meal added. The second group was fed a similar ration but included two per cent of tankage. Seven pounds of meal per sow per day was fed to each group. The results of feeding the sows with tankage for twenty-five days was 62 cents. The sows receiving the tankage lost 29½ pounds less than those in the other two, while the litters of tankage received gained 12½ pounds more than those in the other two. This test is reported in the Brandon Experiment Station report for 1925, available at the Public-land Branch of the Department of Agriculture, Ottawa.

### Okanagan Fruit Crop Estimated That Apple Crop Will be Heavier This Year

It is estimated by the Horticultural Department of the Provincial Government that the apple crop of the Okanagan district will reach a total of 2,175,000 boxes, as compared with the total crop last year of 2,552,410 boxes. The crab apple estimate is for 117,850 boxes, as compared with 115,423 boxes last year; pears 100,000 boxes, compared with 164,811; plums and peaches, 215,250 boxes, as against 177,766 boxes last year.

### An Old Irish Tune The "Fanny Fanny" is Not As Popular as All Irish, Says Dr. Gratton Flood, an Irish Author on Musical History.

The "Fanny Fanny" is not as popular as all Irish, says Dr. Gratton Flood, an Irish author on musical history. He asserts that "Fanny Fanny" is the most popular Irish air known as "All the Way to Galway." Also "God Save the King" is the Irish national air. Dr. Flood says, in an old Irish tune, which originated about 1395—London Despatch.

### European Wheat Crop Less The wheat crop of June-1925 is officially estimated at 77,475,000 bushels as compared with 78,616,000 last year, according to a cable received by the Department of Agriculture at Ottawa. The total wheat production in European countries is 960,434,000 bushels against 1,023,225,000 last year, a decrease of 63,800,000 bushels.

### A two weeks' vacation goes about as quickly as the day for people who must rest round.

When it comes to securing the earth a defective often can give a scrub-woman a few pointers.

## Unemployment in Britain

Over One Million Persons in Receipt of Poor Relief

On one day in July of this year 1,089,948 persons were in receipt of poor relief in 21 selected areas of Great Britain. While this is 1.7 per cent less than the previous month, it is 52.5 per cent greater than in July, 1925. According to advice just received by Bankers Trust Company of New York from its British Informant Service, 604 out of every 10,000 of the estimated population were in receipt of aid in July of this year compared with 614 in June and only 394 in July of last year.

Of the above total of 1,089,548, 908,045 were persons living in England and Wales, and of this total 114,784 received indoor relief and the balance 793,261, received outdoor relief. In Scotland the total receiving aid was 171,903, of which 9,454 received indoor relief and 162,449 outdoor relief.

## Electricity and Steam

Electrification of Railways Now Beyond the Experimental Stage

Electrification of railways is well beyond the experimental stage in England and in several of the large provincial cities, such as Liverpool. It gives greater speed, a more frequent service of trains, and a pleasant means of travel from the smoke and dirt inseparable from steam locomotion.

Technical authorities incline to the opinion that the railways will be gradually electrified by gradually widening circles, but that steam will, at least for many years, hold its own for long-distance haulage. The progress already made is so satisfactory that we can afford to possess ourselves in patience and await such developments.

## Made Huge Omelet

When the American Theological Society held a banquet in connection with its recent convention at Chicago, the culinary force of a hotel was called upon to manufacture a huge omelet containing 200 eggs and 500 pounds of mushrooms the single dish of the meal.

## Alberta Wheat Pool

Four hundred thousand additional acres in the province have been set up during the present year, according to an announcement made by officials of the Alberta Wheat Pool. The Alberta Pool expects to handle sixty per cent of this year's crop.

Expressing his views in an interview in the Province, the economist says he has no distrust of machines, and thinks they will prove the "emancipation" of the human race.

He expresses his belief that America needs more machines and that a brain with nothing more than hands to carry out its ideas is "hopelessly hampered."

## Who Was Mrs. Grundy?

Real Character Who Had Strong Sense of the Proprieties

One hour and nine minutes of frequent references to "Mrs. Grundy" almost anyone has a rather good guess as to who she was. But who was she? It will be made, but Mrs. Grundy was a real character. She was, it appears, the housekeeper at Hampton Court, London, in the late '40s and early '50s of last century. A delightful lady, this Mrs. Grundy, with a strong sense of the proprieties, which led her to look up every work of art she considered unfit for public exhibition in a room which is still known in the palace as "Mrs. Grundy's Gallery."

## Bush Labor in Demand

Half a thousand men are required to take care of the immediate demand for bush workers, according to a press statement issued at Port Arthur, Ontario, by the bush harvesting industry. Industry indicates that the Thunder Bay district will have the largest year in its logging history. Timber operators from all parts of the district report their labor requirements will be at least one-third greater than last year, which was one of the best years since lumbering became the chief winter industry of Northern Ontario.

## Where Gossips Are Jailed

Gossipping wives are put in jail in the little Belgian town of Courmayeur. On the complaint of husbands' wives who leave their morning work to hang about the back fence with the neighbors can be commended by the authorities to the town hall. Numerous complaints are made by husbands who invoke this revival of an old medieval law to keep their wives in hand.

A young man doesn't begin to rise in the world until he settles down.

## Successful Annual Pastures

Palatable and Profitable Green Feed for Livestock

There are three successful annual pastures particularly grown in this country. These are rape, kale and cabbage. The last named is not often referred to as regards its quality as a forage plant, but is stated in a recently issued pamphlet by the Forage Crop Division of the Central Experimental Farm at Ottawa, the Rape (varieties leaf and Drumhead) (smooth-leaf) type make a succulent, palatable and profitable addition to our annual pastures. Experiments in the cultivation of these crops have been conducted for several years at the Central and branch farms and stations throughout Canada. High moisture makes them difficult to cure, but are responsible for their giving satisfactory results when pastured or fed green.

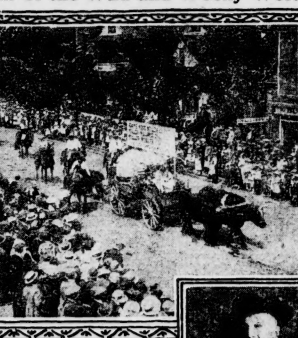

In the pamphlet, which is available at the Publications Branch of the Department of Agriculture, Ottawa, is given a table of results from tests at the Central Experimental Farm and also quotations from reports received from different branch farms and stations in all the provinces, showing the suitability of these fleshy annual pastures for a wide range of soil and climatic conditions. In Prince Edward Island rape has proved good pasture in the fall for steers. In Nova Scotia it has proven the same for goats. Brandon, Manitoba, results indicate that rape is an important place as a quick pasture for cattle, sheep and hogs. It recovers quickly from trampling and is a good feed throughout the winter as a feed for sheep for lambs, brood sows and growing pigs.

Kale is grown extensively in the Fraser Valley and on Vancouver Island and has proven one of the best high green feeds for poultry and for milch cows.

Signs of March weather are on the march. His crew consists almost entirely of Italians, but every man is specially trained and everything goes like clockwork. March is making wireless experiments and he keeps incessantly from port to port round the coast of Britain, seldom sleeping on shore two nights in succession.

Too many men try to adjust their religion to fit their business.

## "Daddy" Blair of the Wild and Woolly West

1. One of the examples that attended. 2. Blair dressed as cowboy taking part in Hudson Bay Fair, 1924, at the age of 54.

A world-weary Old Timer, one of the pioneers of the Canadian West, died recently in Edmonton at the age of 94. He was known as "Daddy" Blair, but his real name was a Scotsman Alexander Blair. As a scout, soldier and adventurer he carried the Hudson's Bay Company flag into the unknown lands of the West for half a century, finally, bowing like a sturdy old man, he died in the arms of his wife. Since the inauguration of stampedes in various cities in the West, Daddy Blair was always one of the first to attend, no matter how much he felt the weight of his years. He made his last effort in 1920 when he attended the Hudson's Bay Parade in Edmonton at the age of 85.

He was only forty years of age at the time he left the old homestead near Montreal. The glamour, the excitement, the uncertainty, the danger, the life, the shouts of the performers, the tumultuous applause of happy pleasure-seekers, lured him. Even then his life was blood and sweat and death around the world with Barnum's circus.

One day in London, Daddy was driving one of Barnum's elephant-tanks. A little girl ran suddenly in-

## Homestead Entries in West To Date Are Reported Greater Than For The Entire Year 1925

### B.C. Honey Yield

A Wide Variety of Flavors in Coast Province Product

British Columbia, apparently, is the only province where the honey yield is expected to approach normal, and even in this case the crop is described as spotty. However, as high as 25 cents per pound is being bid for the product from the Pacific Coast, and forecasts indicate there will be no difficulty in disposing of any surplus over home requirements in the Prairie Provinces.

While there is a wide variety in flavor of honey in any section, because of the honey from many different sources, that made in British Columbia, on account of the great range in climate, seems to be distinct from any other in the Dominion. The honey coming from alders located in the mountains has a particularly pleasing flavor in most cases, but just what plant is responsible for this is not altogether known. It may be in a few minutes reach a spot on the mountain side that is almost inaccessible to man. Foresters have reported seeing bees working over a plant, locally known as false heather which grows on high, rocky ledges.

### Northern Alberta Crops

Oats Will Yield Sixty to Seventy Bushels to the Acre

Thirty bushel wheat crops will be common in the northern agricultural districts this year, according to estimates given by agents along the lines of the Edmonton, Duncan and British Columbia Railways. From every district—except one—indications are that a bumper crop will be harvested in the Northland. In the majority of districts one will yield sixty to seventy bushels per acre, with barley running in the neighborhood of forty bushels per acre.

Farmer (to chemist): Now be sure and mark plain on those bottles which say "my wife and I are for the cow." I don't want nothing to happen to that Jersey cow.

### Praise for Lord Willington

Glowing Tributes Paid to Canada's New Governor General

The London Observer recently devoted a column to a glowing appreciation of Viscount Willington, Canada's new Governor-General. After paying tribute to Lady Willington and Lord Willington's new duties in connection with the Great War in promoting British and Indian co-operation and goodwill the paper concluded:

"The Canadian people, as Lord Reading remarked the other day, will find in their new Governor-General, and his wife who is a consummate character. They cannot fail to be attracted, as the people of Bombay and Madras were attracted, by the frankness and simplicity of his high representatives."

### Has Valuable Relic

Pennsylvania College Has Lens Used to Discover Oxygen

The celebration of the sesquicentennial of the discovery of oxygen in 1774 by Joseph Priestley, pioneer in chemical research, recalls the burning interest taken by Priestley which led to the possession of Dickinson College, Carlisle, Pa. The lens, together with accompanying apparatus, is of particular interest because it was with a similar lens that Priestley, by concentrating the sun's rays on mercuric oxide, discovered the gas oxygen. The college came into possession of the valuable relic through Thomas Cooper, who accompanied Priestley to America in 1794.

### Increased Earnings on Railways

Increased density of traffic is thrown into relief as the underlying cause of this year's record earnings by Canadian railways in the first half of the year. For the first six months gross revenue of all the roads showed an increase of 25.5 per cent, or 15.6 per cent. The increase in net was even higher as the ration between operating expenses and revenue was appreciably lower during this period.

### New Motor Oil

Chemists seeking a substitute for motor oil, which has to be hurried, have found a way to secure the oil from very high quality and safe for airplane engines. Seven or eight gallons of oil are taken from the seed in a ton of grapes.

Teacher—How would you tell the height of the tower by means of a barometer?

Student—I'd lower the barometer from the top of the tower and then measure the rope.

Some of the Calgary musical critics were not altogether satisfied with Gali Curci's singing. Their criticisms have started a sharp controversy.

Supt. R. S. Winter of the Gas Company is sure that the foul odor of the Turner Valley gas is a real blessing. He says stopping leaks will prevent the smell. Stopping the leaks is easier said than done. On paper it is a beautiful theory, but in actual practice it is apparently impossible in some cases. At any rate the foul odor is such a blessing that some have shut the gas off and are using other fuels for heating and cooking.

## Ontario Government Goes to People on Government Control of Liquor

Toronto, Oct. 19.—After holding office three years and four months, the Ferguson government has decided to risk an appeal to the country on a policy of government control of liquor sales coupled with a reduction of the tax. The legislature was dissolved on Monday and a general election has been called for December 1.

## Another West Indian Hurricane

Havana, Cuba, Oct. 22.—Reports of more than 650 persons killed in Wednesday's hurricane, an unknown number of injured and many thousands of homeless were mingled with frantic appeals for aid early this morning. Ten or more towns and villages have been completely destroyed. The property loss is expected to reach nearly \$100,000,000.

## Here and There

The recently organized egg and poultry men in Saskatchewan has 11,000 members. Egg production in this province is \$10,722,000 annually. Saskatchewan is now the second largest poultry producing province in Canada, Ontario being first.

St. Catharines.—The North American wheat championship has been awarded to James Little of this city by the American Vegetable Growers' Association, convening in Cleveland, Ohio. The high quality of Canadian wheat has long been recognized and this new triumph is expected to further stimulate production.

The Australian cricket team, heroes of five test matches against England this summer, arrived in Canada on the Canadian Pacific liner Manitou, October 18. After visiting some of the principal cities in Canada and the United States, the team proceeded to Vancouver where they sailed on M.S. Arcturion for their homes in Australia, October 21st.

For the third year in succession the Madam First Aid Team from New Brunswick carried off the "Grand Challenge Trophy," emblematic of the eastern line first aid championship of the Canadian Pacific Railway. The competition was held recently at the Place Viger Hotel in Montreal, four other teams from points east of Port William competing.

The oldest employee of the Canadian Pacific Railway is now at work, Isaac Gouveneur Ogden, vice-president in charge of finance, celebrated his 82nd birthday October 19th. He has served the Company for 44 years and his business experience goes back to the Civil War days. Mr. Ogden was the recipient of felicitations from all parts of the Dominion.

General Booth, head of the Salvation Army, sailed recently from Vancouver on the Canadian Pacific liner Empress of Canada for Japan, Korea and the Philippines. The General will tour Japan, China and Korea. True to his maxim of not touching food for two days, he is on a one voyage. The General contented himself with sipping a little hot water while standing to his correspondence and waiting for the liner to sail.

## Lord Willingdon Honored by McGill

Lord Willingdon, Canada's new Governor-General, was honored by McGill University in Montreal recently when the honorary degree of LL.D. was conferred upon His Excellency at the McGill University Convocation. His Lordship paid his first official visit to Montreal when he arrived for the ceremony on October 8th. He was met at the Windsor Street Station by E. W. Beatty, President of the Canadian Pacific Railway and Chancellor of McGill University, and Sir Arthur Currie, Vice-Chancellor of the University.

Crowds lined the short route of the procession along the University campus and the street bordering the University grounds. The vivid colors of the full academic gowns were seen, his Lordship, tall and impressive in his white robes and black velvet cap of the LL.D. The honorary degree was conferred by the Chancellor, Lord Willingdon's great services to India and to the Empire were cited by Sir Arthur Currie when he rose to present His Excellency for the degree of Doctor of Laws. When the degree was bestowed the entire assembly stood while His Lordship signed the book of honor. In a brief speech he said: "I rise for one moment only as a visitor to this University, and by that office, as I understand it, the representative of our beloved Sovereign King George, to express to you, as Chancellor of this university, my sincere appreciation of this high honor that you have done me today in giving me the honorary degree of LL.D."

The University was continued the Governor-General, taking him much on trust, as they knew very little about him beyond hearsay. "I can only say here and now that I sincerely hope that the future years may show that I am worthy of the trust you have given me this afternoon."

The photograph shows from left to right, Lord Willingdon, E. W. Beatty, Chancellor of the University, Monsignor A. V. J. Piette, Rector of the University of Montreal, and Sir Arthur Currie, Vice-Chancellor, in full academic gowns.

## Prince Opens Canadian Student Hotel in Paris

"Maison Canadienne" in Paris. (Left) H. W. Beatty, R.C.L. President Canadian Pacific Railway. The Prince of Wales formally opened the "Maison Canadienne" on October 1st, a part of the well-known "Cite Universitaire" located on the outskirts of Paris. Canada is the first country outside of the European continent, to erect a modern building for the sole use of Canadian students attending the "Cite Universitaire". When completed, this institution of learning will follow closely the lines of Oxford and Cambridge Universities. Aside from the central buildings wherein instruction will be given, there are to be various student residential halls or hotels. Each will be erected by various nations to house those of their students who are studying at the university. The "Maison Canadienne" is most modern and up to date and has been built by public subscription, of which the sum of \$250,000 was used.

## Favorite Thespians Coming

Coming to the Rex theater Friday, October 22nd are the well-known Allen Players, with Verna Felton, a favorite with theatergoers all over the west, who are this season making a trans-Canada tour playing George M. Cohan's great comedy hit, "See, This is London," as a first class road show. This is the logical result following their record breaking run of ten solid weeks in Vancouver where they played this great mirth provoker during that time to over 100,000 people—thus creating a theatrical record for all Canada, no such run ever before or since having been made by any company in this country. This record making run became the talk of theater folks all over, and as a result this clever company is in demand, and is already underlined to appear in the principal cities and theaters from the Pacific to the Atlantic.

Considering the size of Vancouver, it speaks volumes for the quality of the fare presented when one grasps the fact that for

eighty performances the largest theater there was packed to capacity—people coming even from Everett, Bellingham and Seattle to enjoy what the Vancouver Star characterized as "a perfect performance by a perfect cast, while the other dailies referred to it as "Just one delicious long lingering laugh." And amidst bursts of spontaneous and ever recurring laughter, the house roared and roared with unrestrained glee. And these friendly criticisms are not at all overdone, as the company is particularly fortunate in having in the cast Americans for all the American parts and experienced English artists of a high order for the English characters. Verna Felton is simply inimitable as Lady Duckworth, the American girl married to a titled Englishman, while Leo Miller as Hiram Draper the millionaire American manufacturer, gives a well maintained and convincing portrayal of the man who came over to England with preconceived notions, not all of them favorable, but who finally sees that after all Englishmen and Americans are good deal alike in the fundamentals, and are intended really to be the best of friends. In his portrayal of Sir Percy Beauchamp, the English aristocrat, with his

inborn dislike of Americans and all things American, Frank Vyvian stands out alone, without a peer in his artistic interpretation, while as lady Beauchamp, Olive Elstone is the high born aristocrat to her finger tips, her every intonation and facial expression being true to life and without a flaw. The combined result is actually a perfect performance, as so aptly described by the Vancouver paper, and without the slightest hint of languor or buffoonery, the clever performance keeps the audience merging from one spasm of uncontrollable laughter into another.

No finer presentation of an international comedy has, it is confidently asserted by those who know, been given, not even in London or New York, where in both metropolitan centers it ran for two whole seasons, becoming thereby the laugh of two nations, thus carrying out the intention of the author to show both Americans and Englishmen that they misunderstood each other—and not only that, but that each of them were themselves largely to blame for the misunderstanding of the other one.

The company opens at the Grand Theatre, Calgary, on Monday, October 25th.

## New Telephone Rates are Necessary

**BECAUSE** The old rates failed to provide any reserve provision for depreciation or storm damage on an investment by the people of the Province of \$22,966,148.57

1. The old rates barely paid for operating expenses and interest charges on the capital debt.

2. The interest charges of over a million and a quarter annually are fixed and must be paid.

3. Operating expenses have been cut by \$100,000 per station in the last four years and can be cut no further without seriously impairing the service.

4. The added revenues will secure adequate provision of the investment and put the telephone utility on a sound financial basis.

5. The individual subscriber's share of the increase is small and he receives dollar for dollar of his rental in good telephone service.

6. With adequate and fair rates, Alberta's Telephone System is equal to none in America. As a subscriber you appreciate this.

## A PINE BATHROOM

Modern fixtures have another advantage—they are easier to keep clean than the old-fashioned kind. Those beautiful smooth white surfaces can be kept in a glossy condition with very little care—and there are no difficult corners where only an acrobat would hope to clean successfully. Drop in and see our display of bathroom fixtures.

### Here and There

The financial statement of the Canadian Pacific Railway issued at Montreal for the seven months of 1929 ending Feb. 28th, shows the net income in the net profits of \$1,040,000 over the net profit for the first seven months of 1928. The gross earnings were \$101,200,271.11, as compared with \$99,411,847.73 for the first seven months of 1928.

Published statistics prepared by the authorities of the Department of Commerce, Washington, indicate that the American oiling Canada has increased considerably in 1929. The Canadian oiling industry is reported to be very conservative and that it was not until early this month that it would exceed the 1928 oiling mark.

An announcement has made recently by the signature of E. N. Todd, freight traffic manager, Canadian Pacific Railway, at the appointment of H. A. Wadley as Industrial Commissioner of the Railway, with offices in Montreal, Mr. Wadley replaces Graham W. Curtis, who has resigned to fill the position of general manager for Montreal Rail and Water Terminals, Limited.

Otto H. Kahn, chairman of the board of directors of the Metropolitan Opera Company, accompanied by a party of international known friends of New York, visited the National Exhibition at Toronto recently. Mr. Kahn, who is perhaps the leading art and music patron of the United States, addressed a luncheon of the directors of the Exhibition on September 2nd, and was the exhibition, which was set aside as "Music Day."

Eight Pacific type locomotives, known as the G-3 class and similar in general design to the well known G-200 series Pacific class locomotive of the Canadian Pacific Railway, have been delivered to the Company. They are part of an order of 24 of these locomotives. By a special application of superheaters, greater power is developed. Delivery has also been commenced on an order of twenty Mikado type locomotives of the 3500 type which have the same improvements. Both class of engine are part of the general equipment for which a provision of \$14,791,045 was made in the last annual report of the Company.

## Speed up Business with

for Economical Transportation

CHEVROLET Coupes for salesman's use and Chevrolet Utility Express Trucks for hauling and delivery are speeding up business for thousands of firms in Canada. Careful owners record show that Chevrolet pays for itself many times over in lower operating costs, in freedom from repair, and in longer life. These records prove beyond doubt that Chevrolet cars and trucks provide the utmost economy of transportation in Canada today. Ask your Chevrolet dealer to show you the records of actual Chevrolet owners. They may suggest ways in which Chevrolet can speed up your business and cut down your costs. The Smallest Chevrolet in Chevrolet history is selling at the Lowest Price for which Chevrolet has ever been sold in Canada. Ask about GMAC Plan of Deferred Payments.

### Here and There

Edmonton—Large mouthed black bears may soon be available to Alberta sportsmen for a batch of fingerlings and swallows from the Kootenay Lakes have been placed in Lac La Poudre by the Northern Alberta Fish and Game Protective Association.

McGill University opened her senior football season in Montreal at the Percival Molson Memorial Stadium on October 2nd, with a game against the Old Boys. One of the most enthusiastic fans of this game is E. W. Beatty, President of the Canadian Pacific Railway, who is an annual ticket holder, and who will be present at all the big games this season.

Thirty students from Oxford and Wye Agricultural College, Kent, England, returned home on the Canadian Pacific liner Montclair recently after having assisted in the harvesting of the Saskatchewan crop. These young men were brought out to the Dominion by the Department of Colonization and Development of the Canadian Pacific Railway, and placed on selected Saskatchewan farms by the Women's British Immigration League. The students are returning their studies in England this fall.

G. Walter Booth, Prosecuting Attorney for the State of Ohio, in an interview in the tourist department of the Canadian Pacific Railway at Montreal recently, stated that American hunters were choosing Canadian hunting grounds in place of those in the United States, practicing without exception. Americans, he said, were taking one hundred per cent. interest in Canadian game resorts. Mr. Booth is at present in Canada on his annual duck hunt near Winnipeg, and also a big game trip in north-western Quebec.

### Electric Lighting Plant

not only provides a  
complete and safe lighting  
system for every room in  
the home, inside and around  
the stock-barn, etc., but it  
also, at the same time,  
delivers ample power to  
drive the smaller machinery  
and domestic equipment of  
the farm home.

### The British-Built "LISTER"

of 1500 Watts capacity is the plant with the big reserve power. The small  
500 Watt unit is useful if you require a full lighting service and spare  
power at same time.

In the name of Safety alone—not to speak of its tremendous labor saving  
and other conveniences—this wonderful piece of farm equipment is worth its  
modest price many times over.

Let us give you full particulars.
